PROGRAM OF STUDY FOR HIGH SCHOOL

A Program of Study is created individually for each student based on their academic abilities, approved credits transferred to ED Anywhere from a previous high school or home school curriculum, and personal interests. ED Anywhere students have access to their accounts 7 days a week/24 hours a day/all year round. Therefore, ED Anywhere students have the flexibility to complete their diploma requirements and graduate from high school much earlier than students who must adhere to a four year, 10 month, school calendar. Below is sample version a Program of Study for an ED Anywhere student.
